Business Owners & Catalog Marketers across the USA-

We are looking for a few Marketers who want to help protect family, friends and customers across America informing them why our families are at risk and what we can do about it.

Introducing- Super Grip Lock- We are working with Businesses, Online Marketers and Mail Order Catalog who enjoy solving a big problem with a simple solution. Educating families why they're at risk, then providing a simple Police endorsed solution.

**HERE IS THE PROBLEM-** According to Homeland Security- It's do to the 5<sup>th</sup> Amendment- that our Nation allows lock picks, pick guns, and bump keys *to be sold online*. Criminals know all about these picking devices. They open locked doors nearly as fast as a working key and show you how it's done. If you rent or stay in a hotel/motel you have other problem- Landlords, managers and other employees often have access to the keys that unlock the renters door.

Super Grip Lock works on most standard deadbolts in homes' and motels' across America. Locking down the deadbolt handle when the bolt is engaged stops the bolt from moving- This stops all keys or anyone who can pick-open a locked door and walk-in.

See the *Officer* shown at [www.supergriplock.com](http://www.supergriplock.com). He volunteered his time and home to demo Super Grip Lock in hopes families' and travelers' would understand the need and protect themselves. Lets work together and come to the aide of millions in need.
