Super Grip Lock LLC

548 50th Ave., Sweet Home OR 97386

Home of the Police Recommended Deadbolt Accessory-
Super Grip Lock

RADIO STATIONS ACROSS AMERICA-

HERE IS THE PROBLEM- Our Nation is allowing lock picks, pick guns, and bump keys *to be sold online* because they believe it's a 5th Amendment Right- This conveyed to me by *Homeland Security*- I called because I don't believe they should be sold online.

Criminals know all about these picking devices. They open locked doors nearly as fast as a working key. Sellers show you how on their Websites. If you rent or stay in a hotel/motel you have another problem- Landlords, managers and other employees have access to the key that unlocks your door. But your door can't be unlocked- if you are using Super Grip Lock as shown above.

We are offering interviews to Radio Station across America who wants their listeners know why our families are at risk so they can protect themselves by installing Pick Proof Deadbolts available in Lock Shops and in Hardware Stores across America. Or, for those who can't afford these locks- They may consider an inexpensive Police endorsed solution called Super Grip Lock-

Super Grip Lock is a simple solution.- It attaches to the deadbolt handle and goes under the door knob to lock down the deadbolt handle, then press the fabric together when its wrapped and the bolt is engaged. This stops all keys and picking devices from unlocking the deadbolt .Works instantly on most deadbolts.

It was tested by- The National Locksmith- evaluating locks for the lock Industry since 1929 summarized, "There is an unlimited potential for customers and the \$10 retail is definitely right." An elastic pocket was since added so it works on even more deadbolts. We changed the name Security Travel Strap to Super Grip Lock after learning these picking devices were sold online.

Fighting crime since 1897, The International Association of Police Chiefs never endorses any product. But, they introduced Super Grip Lock to Law Enforcement in the Police Chief Magazine. Super Grip Lock was also honored with- "One of the Ten Most Marketable Product of the Year Awards," by the Electronic Retailers Association. And won, "The First Place Security Award," at the at the Invention Convention an international event, held in Pasadena, California.

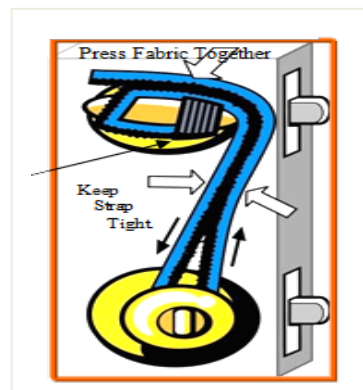

Police *Officer* Bryon shown at www.supergriplock.com volunteered his home to demo Super Grip Lock in hopes families' and travelers' would understand the need and protect themselves. Lets come to the aide of millions throughout America who need to be informed- their families are at risk- because anyone can buy these unlocking devices online and need to protect themselves.

I will be happy to speak with Reporters anytime and answer all questions to the best of my ability. Best time is 8 am to 10 am PST

Thank you for your kind consideration.
